GEORGE McMILLAN

August 7, 1969

Dear Jerry:

I have got a young fellow in St. Louis doing some research for me and I have asked him to get in touch with you. His name is Ron Stutzman. He is a good fellow. He is a graduate student at Washington University who has spent a year or more making a study of the Soulard section. He lives in the area with his wife and child. He really understands what is going on in South St. Louis.

Will you please help him?

Thanks

George
